Seneca Creek 24K Topo Maps

These maps make use of the latest GPS and GIS data available as of July 2005. Trails compiled by USFS personnel using GPS and GIS Technology current as of 2005.

The West Virginia Highlands Conservancy makes available this PDF document and maps printed from it free to any one who wants to explore this great area. We ask that you do not sell or distribute these maps for commercial purposes. If you would like to join the West Virginia Highlands Conservancy and help protect areas like this, use the application on the last page or go to <http://www.wvhighlands.org/cubecart/index.php?act=viewCat&catId=1>

Printed with the page scaling set to none on letter size paper, these maps will maintain their 1:24000 scale. Make sure you have the Adobe Reader print dialog set to the page you want to print.

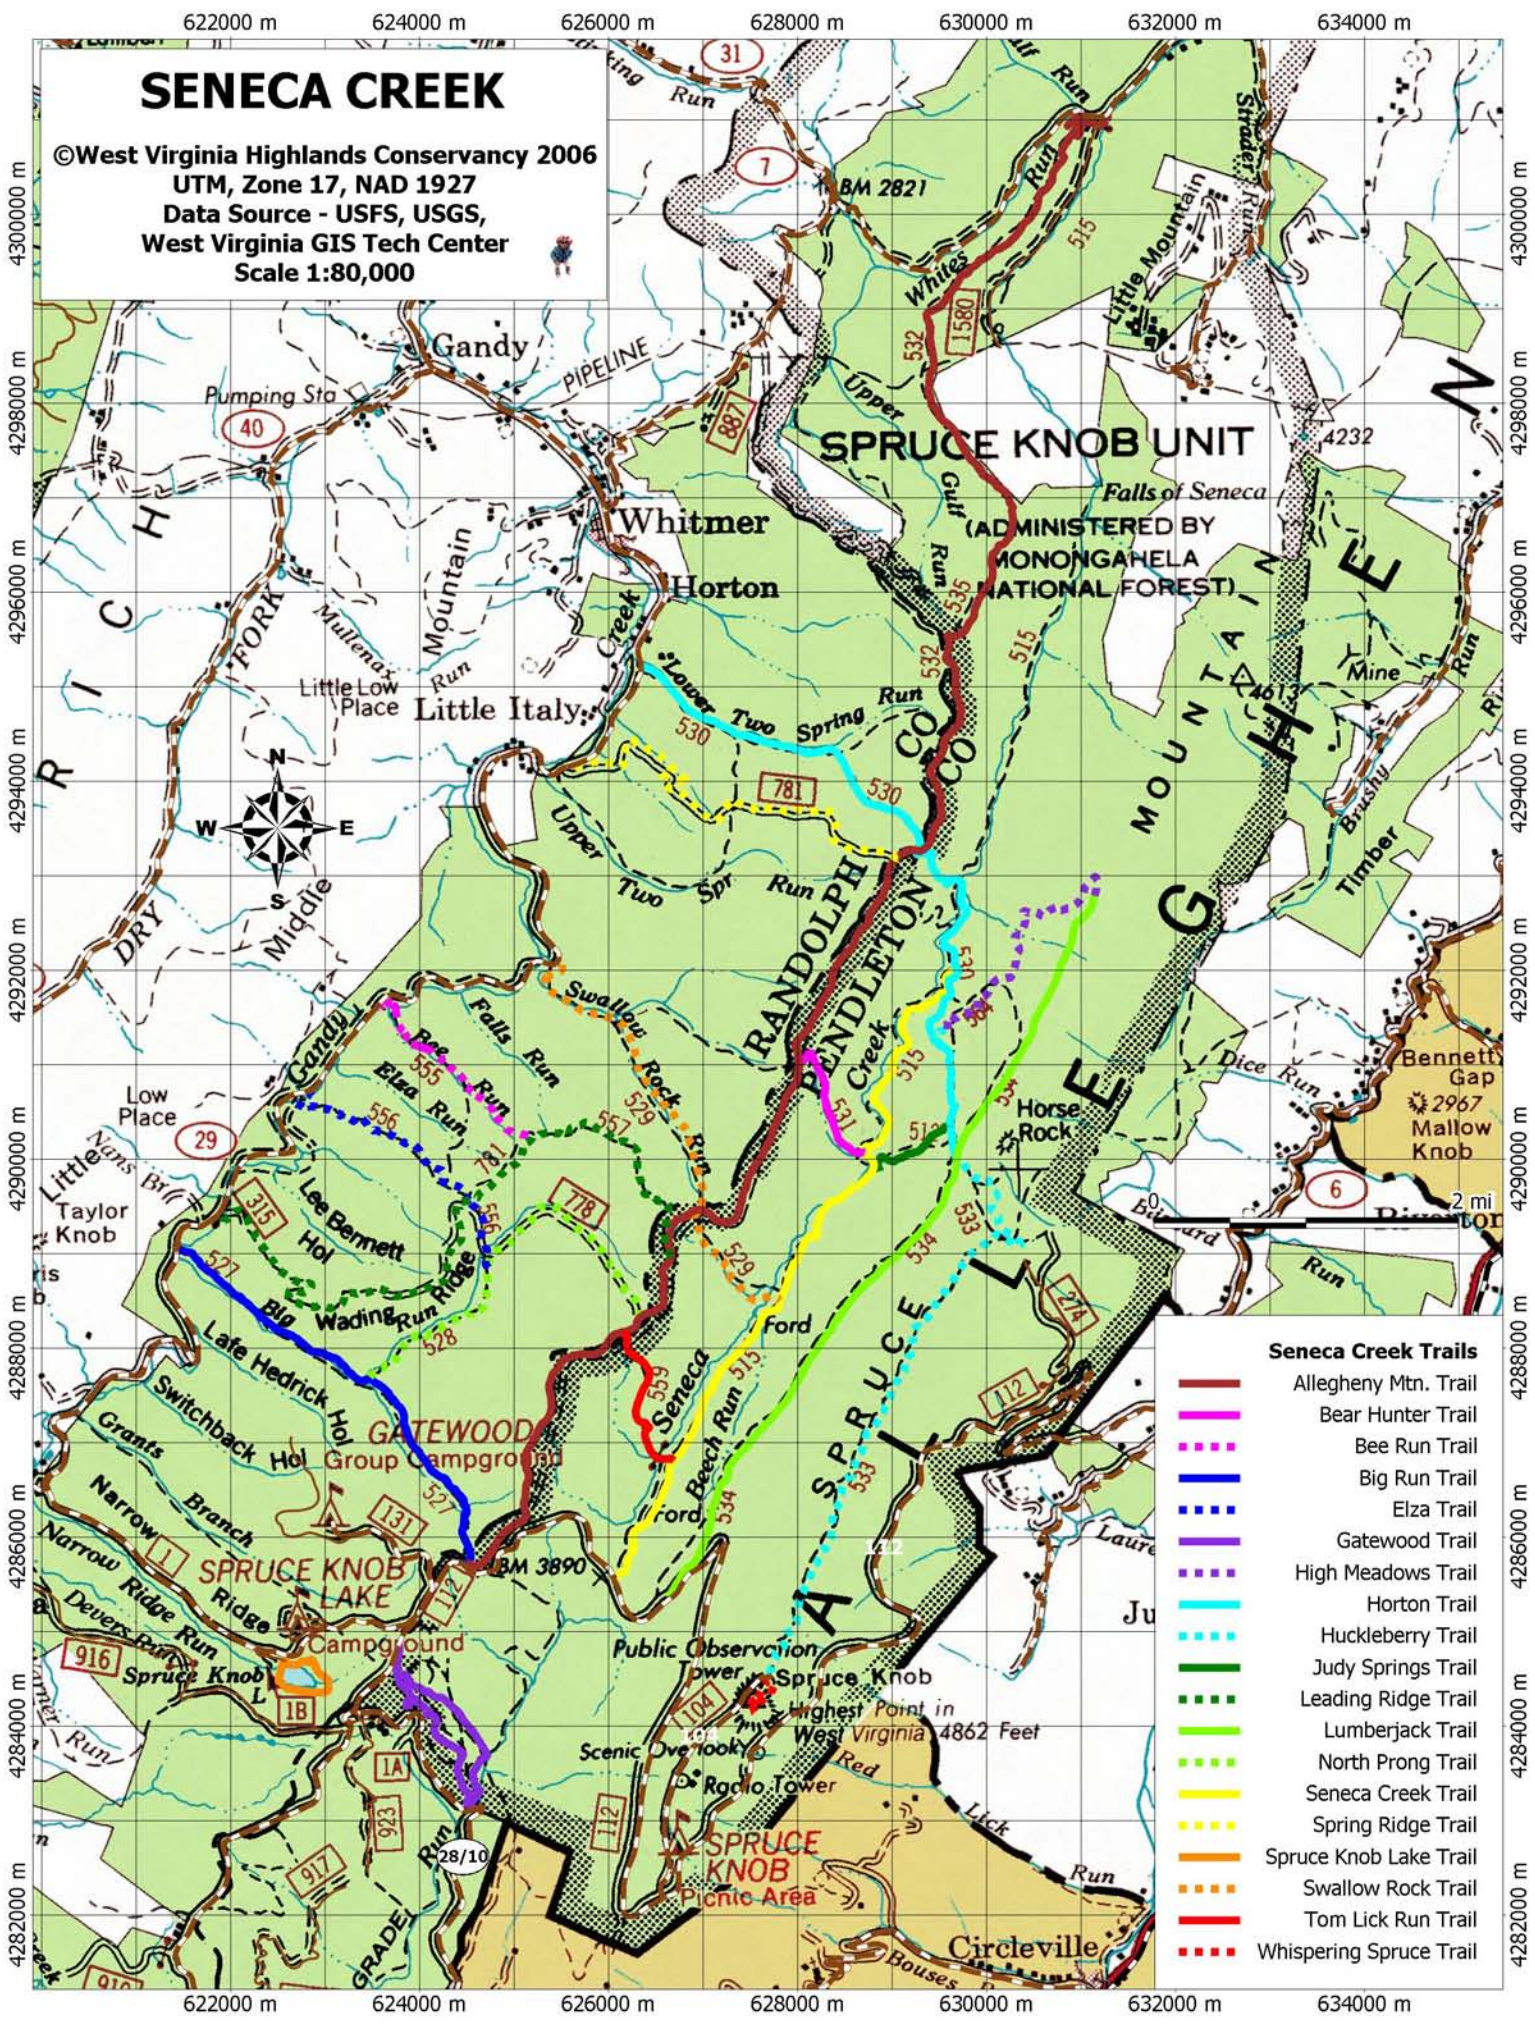

I have not included the magnetic declination because it is very dynamic. In 1997, the magnetic declination for this area was 8.5 degrees west. For more info go to <http://geomag.usgs.gov/> .

Background for maps provided by USGS/USFS Single-Edition Topographic maps published 1995. For more info on USGS Topographic Maps go to http://erg.usgs.gov/isb/pubs/booklets/symbols/http://mapserver.maptech.com/mapserver/topographic_symbols/USGS_top.html
